Catch Up is a structured literary intervention programme for children aged 6-11 who find reading difficult. It has been proven to be an effective tool which can significantly help struggling readers in just 10-15 minutes a week. We are delighted to have been working with Catch Up for over four years, providing collections of non-reading scheme books to be used alongside reading schemes, giving teachers a wider choice of books for their work with struggling readers. The aim is to help teachers and teaching assistants select books appropriate for the individual child – books which the struggling reader can read with a high degree of success. These great collections offer the best of levels 3 to 10 in a choice of two packs. For more information on Catch Up visit www.catchup.org.uk
